

**PROOF**

The yellow artwork bleed area is the full bleed background printing area. The blue dotted line is the safe area that all important text and logos need to be inside or they will be hard to read. The purple pms 2385 color is used to show the window that will be visible to the fill.

**UNFOLDED BAG**

**PLEASE BE ADVISED**

During the printing and manufacturing process your artwork may shift up to .125" in any direction.

Because of slight shifting in the production of the bags, it is best to have the artwork/color of the TOP SEAL match the BOTTOM SEAL. This will ensure that if shifting occurs the bags will still look seamless and not have a thin strip of misplaced artwork/color.
